Concluding Remarks

- NRWDI received clean audits for seven consecutive years.
- An institutionalised culture of accountability, trust, honesty and responsibility prevails in NRWDI, thus
 demonstrating a resilient commitment towards good governance, prudent financial management,
 operational excellence and leadership based on the highest ethical and moral standards.
- The long-term sustainability of NRWDI remains a risk for NRWDI. With the competing priorities faced by NRWDI as well as the need for delivery of its mandate, the funding over the MTEF cycle is inadequate to cover both the operational and project related costs.
- NRWDI will never compromise on safety and security, taking full accountability for our social and environmental responsibilities and actively engage with stakeholders in an open, transparent and respectful manner.
- NRWDI remains totally committed to fulfilling the vast expectations of South Africans that radioactive
 waste can be safely managed in a manner that meets or exceeds all applicable regulatory standards and
 requirements for protecting the health, safety and security of our people and the environment, both now
 and in the future.
