

CAPE ROUTE 2026

13 OCT - 05 NOV

The **energyDRIVE Cape Route 2026** programme will visit no fewer than 20 schools across the Northern, Western and Eastern Cape. It will engage learners from Grades 9 to 12 through an interactive educational experience designed to promote sustainable development and renewable energy awareness.

BE PART OF THE TRANSITION , INVEST IN THE FUTURE!

The Cape provinces are at the forefront of South Africa's renewable energy sector, hosting a significant share of the country's wind and solar projects. As key contributors to the national grid, these regions are central to advancing energy security and supporting continued growth in clean energy generation.

In this context, there is a growing need to build awareness, skills and interest among young people who will form part of the future energy workforce. energyDRIVE Cape Route responds to this need by equipping learners with the knowledge required to engage with the sector and its opportunities.

Established in 2017, the energyDRIVE Cape Route has demonstrated strong and consistent growth, both in scale and impact. Since 2022, the programme has more than doubled its reach - expanding from **15 to 34 schools** and increasing learner engagement from **1,800 to over 4,300**.

CAPE ROUTE IMPACT SNAPSHOT

2025 PROGRAMME REACH	
	34 SCHOOLS
	4,353 LEARNERS ENGAGED
	2 PARTNERS
	8 SPONSORS
GROWTH SINCE 2022	
	From 15 to 34 Schools
	From 1,800 to 4,353 Learners
CUMULATIVE IMPACT (2022-2025)	
	80 SCHOOLS REACHED
	9,049 LEARNERS ENGAGED

This growth reflects not only increased demand, but also deeper stakeholder confidence, with sustained sponsor support and evolving partnerships year-on-year. To date, energyDRIVE Cape Route has reached over 9,000 learners across 80 schools, supported by multiple partners and sponsors, reinforcing its role as a credible platform for youth engagement in the energy sector.

- Why partner with energyDRIVE Cape Route?
- Direct engagement with learners in established renewable energy regions
 - Alignment with Just Transition and ESG objectives
 - Brand visibility across multiple schools and communities
 - Contribution to skills development and the future workforce
